# Berliner Fast Lane Slide!

Wide  
Range of  
Colours  
Available

Greenville Style

## Advantages

- Slides made of solid 19 mm thick HDPE plastic to ensure durability, deter vandalism, and to remain structurally sound for years to come.
- The sturdy HDPE material helps prevent cracks and breaks. Furthermore, it's superior UV resistant and colourfast
- Easy to install via panel clamps with no support posts needed.
- Works with standard in-ground or surface mount installations.
- Compatible with most of the Berliner play equipment.
- EN 1176 and ASTM compliant design including hand support and built in slide transition platform for deckless structures.
- And of course: super fast!

## Play equipment for life

This Claim means a lot to us. It defines the way we build playgrounds and the way we think. With almost 50 years of experience in the playground equipment industry, combined with our extensive rope manufacturing knowledge we have designed a variety of products for unique playground landscapes indoor and outdoor.

Now, we want to enhance our product portfolio with another inter-active, enjoyable activity by introducing our new and high-tech HDPE "Fast Lane Slides" to our array of add-on components. And as usual: 100% made in Germany.

Various  
Themes  
Available

## Customisation

- Slides consist of individual modular panels, making them more customisable.
- HDPE slide panels are made on CNC machines ensuring the highest precision.
- Choose from a wide range of colours to match any playground theme.
- Even our popular Greenville bamboo slats can be used for design.
- Dragon tails, underwater world – whatever you can imagine, our slides can accommodate it.
