Fireball.3.1

Product Specification

HodgePodge Playpoints are climbers or rockers or twisters. They are Playpoints first and foremost, but they are also very nice pieces of public design, and they are sculptural. All HodgePodge Playpoints are high-end engineered units made from high-quality materials like stainless steel with a brushed finish, powder coated recycled aluminum connectors, high density polyethylene (HDPE) panels and ITR-bearings for maximum safety and durability.

This new Fireball impresses with its size, elegance and playing pleasure. The infill of the ring and the slipproof HDPE surface provides the necessary grip while spinning. Simply stand up, hold on and o you go.
