Berliner Fast Lane Slide

Wide
Range of
Colors
Available

Greenville Style

Advantages

- Super fast!
- Slides made of solid 3/4" thick HDPE plastic to ensure durability, deter vandalism, and to remain structurally sound for years to come.
- Superior UV and color fade resistance.
- The sturdy HDPE material helps prevent cracks and breaks.
- Easy to install via panel clamps with no support posts needed.
- Works with standard in-ground or surface mount installations.
- Compatible with many Berliner rope play structures.
- ASTM compliant design including hand support and built in slide transition platform for deckless structures.

Play equipment for life

We at Berliner have been saying this claim for years, as it remains very meaningful to us. Rope climbing is our passion to help encourage children to be interactive, learn new skills and challenges, and have fun.

We have a fondness for rope play's complex experience, but slides are fun too! We want to enhance our rope play with another interactive, enjoyable activity by introducing our new and high-tech HDPE "Fast Lane Slides" to our array of play products.

Customization

- Slides consist of individual modular panels, making them more customizable.
- Super fun HDPE slides with a unique design all in one!
- If you can imagine it, our slides can accommodate it. Flames, dragon tails, rocket ships, oh the possibilities! One color, two colors, three colors or more!
- Wide range of colors to match any playground theme.
- HDPE slide panels are created by our CNC machines ensuring the highest precision.
- In addition to colorful, custom designed HDPE panels on the outer sidewalls of the slides, even our popular Greenville bamboo slats can be used for design.
