Compact, Classic All-Round Talent: **Quadrifol**

The Quadrifol is a net climber where the spatial net is suspended within a cupola. Created and manufactured by Berliner Seilfabrik, the simple, yet elegant, structure of the Quadrifol is easy to install and low-maintenance. The Quadrifol is a member of the Berliner Univers family. Known for their see-through outer frame structures with three-dimensional nets inside – the Univers net climbers all have tensioning points provided with the patented AstemTT tensioning system. This ensures that no technical connecting elements or rope

loops intrude into the play area. Climbing in spatial nets is challenging and stimulates 3D-thinking and the psychomotor skills of children. Users can not only move up and down or side to side, like with traditional play equipment, they have the freedom to move in any direction they choose.

The Quadrifol comes along with multiple exciting add-on elements! Mix and match as you like, and as your space allows. Hang out with the Dangle Arc, spin with the Duck Jibe, bounce or chill on the Chess Board Arc, just to name a few – children will have infinite fun!

Whether it's climbing, swinging, sliding, wobbling, or spinning, the Quadrifol.01 has something for everyone! This exciting play structure will attract children of all ages and abilities – with plenty of room to explore and test their skills.

Quadrifol.02

71.133.002

(m) 11,6 x 12,4 x 3,8
(ft.) 38-1 x 40-5 x 12-4
