### Beetle.03

Urban Design Playpoints are climbers or rockers or twisters. They are Playpoints first and foremost, but they are also very nice pieces of public design, and they are sculptural. All URBAN DESIGN Playpoints are high-end engineered units made from high-quality materials like stainless steel with a brushed finish, powder coated recycled aluminium connectors, high density polyethylene (HDPE)

panels and ITR-bearings for maximum safety and durability.

On Beetle.03 you can rock back and forth. The puristic design of the play point leaves plenty of room for imagination and adapts to any environment.

### Technical Data

Technical changes are reserved. The following text can also be used for tenders.

#### Tube:

The bent tube with a diameter of Ø 76,1 mm (3") and a wall thickness of 5 mm (3/16") is made of stainless steel.

#### Ball:

The Frameworkor® aluminium ball with a diameter of Ø 250 mm (9 13/16") is sandblasted, powder-coated in colour using a solvent-free epoxy-polyester-process and securely closed with a durable EPDM cap.

#### Feelers:

The stainless steel feelers are composed of tubes with a diameter of Ø 26,9 mm (1 1/16") and balls welded to them with a diameter of Ø 80 mm (3 1/8").

#### Bearing:

The axle in the Frameworkor® aluminium ball is encapsulated and equipped with a special torsion-elastic spring bearing system.
