Great Play for Small Children: **Wonderwalls**

Wonderwalls are an innovation in play equipment for toddlers by Berliner. Fitted with a wealth of play functions in a reduced space, Wonderwalls are specifically aimed at the needs of toddlers and pre-school children. Each equipment design offers a number of play worlds that are interconnected by windows and passages between the four walls, which are fanned out around a central post. As well as space for retreat, children are encouraged to engage in role-playing games using elements such as mud tables, benches, sand workshops or openings in the walls. Language and social skills are encouraged and practiced in a playful way.

The colorful design and the choice of natural motifs such as a mushroom, pumpkin or tree stump appeal to toddlers and create an inspiring environment.

Thanks to the modular system, low rope elements of our Ter-ranos line can be connected directly to the walls.

Note:

All plan views within the brochure are shown with a scale of 1:100. Details of the product photos, technical plan views and 3D renderings may vary from the descriptions provided. All data is subject to technical changes and misprints. States requirements for age groups may vary, please check local guidelines.

Wonderwalls.01

Playing in the undergrowth! The world of hedgehogs, mice and beetles starts here. Designed as a tree stump, the highlight of these Wonderwalls is the passage with rubber membranes connecting two play areas. And anyone looking closely will find a secret opening under the bench. Do you dare crawl through it?

Letterbox

Hooray, hooray, the mail has arrived! The little ones can send secret messages to each other through the mail-box slot.

Bench

Everyone needs a break sometimes! The integrated bench is a great place to relax or play waiting room.

Rotating Disc

By turning the disc, different motifs come to light

Rubber Membrane Curtain

A curtain made of rubber membranes makes going through it a sensory experience.

Mud Tables

Mud tables at different heights encourage role playing.

Puzzle Elements

Sliding the elements creates different animal and color combinations, depending on which side of the wall the child is on.

ASTM/CSA (ft.) 4-2

Wonderwalls.02

Playing under the mushroom! Toddlers can immerse themselves in the world of wonders and fables, like pixies. Play elements such as mud tables, hatches in the walls and a sand workshop inspires role play. A hammock made of rubber mats encourages the youngsters to swing or try their first walking and crawling experiences on shaky ground.

Passage

Want to quickly change sides? Thanks to the passage, an exciting voyage of discovery is always on the cards.

Sand Slide

The sand slide makes gravity perceptible.

Rubber Membrane Hammock

Finally relax properly. Also a perfect place for parents.

Ramp

This offers an attractive challenge for toddlers who are learning to walk.

Revolving Flaps

Peepholes and motifs are hidden behind the revolving flaps.

Sand Crane

Children can shift the sand from one table to another.

Wonderwalls.03

Playing in the pumpkin house! An eerily fun play adventure invites the toddlers on a discovery tour into the world of wizards and witches. A jungle bridge with handrail rope encourages the first balancing attempts. To get to the Memo-play, on one side a box has to be climbed first. Who dares to explore the cave?

Memo-Play

Even the mind is not missed out: The integrated rotating memo is the ultimate challenge for your brains.

Lovely Details

Various illustrative elements are finely crafted thanks to high quality CNC cutting technology.

Pumpkin Leaves Bridge

Close to the ground, little balancers can dare to cross the wobbly bridge.

Tunnel with hiding place

Search and find is fun, because this tunnel leads to a small cave.

Platforms

Quickly climb to the top? Our seating and climbing elements offer every fantasy big and small.

Jungle Rope

Who manages to balance over it?

Passage with Steps

Over small step elements to the other side and immediately find out something new – this is what the passage allows.

Quality & Design: **Our Materials**

The use of different and particularly robust materials such as HDPE, steel, aluminum, rubber membranes or rope not only ensure maximum durability of the devices, but they also offer a wide range of changing surfaces so that different sensory experiences can be made. In this way, children learn to perceive their surroundings more consciously.
