

CAD Designer

Play equipment for life

The first steps towards the Berliner Seilfabrik were taken in 1865, when a company producing ropes for the Berliner elevator industries was founded. The quality of our ropes has gained a world-wide reputation. The first net structures as climbing equipment have been developed at the beginning of the 70s. For more than 50 years working with play equipment we gained competence in the field of rope production and our intensive development work adhering to all standards and rules for safety, including creative ideas of our competent staff, we have created a variety of products, offering an interesting and recognizable design for playground landscapes.

Job Description

Join our fast-growing company, as a designer of innovative and exciting play spaces that enhance communities! We are a German manufacturer of commercial play equipment; dedicated to improving public spaces through better play experiences. Our US office located in Greenville, SC is currently in search of an experienced Drafter for a full-time position. The ideal candidate will have 3–5 years of design experience. Working with our inside team and our partners you will be responsible for creating custom and standard playground designs for communities, schools, and recreational facilities among other venues.

Responsibilities & Duties

- Utilize 3D AutoCAD to create standard and custom playground designs
- Utilize Lumion, SketchUp, 3D Studio Max and Photoshop to create 3D renderings and fly-overs
- Communicate with landscape architects, reps and end users on a daily basis to complete projects
- Translate sketches into AutoCAD drawings and renderings
- Generate site plans using Google/Bing Images (aerial views)
- Create unique and innovative designs in conjunction with customer requests

Requirements

- Proficient in AutoCAD (2014 or newer), Adobe Photoshop, 3D Drawing and Design (Lumion, SketchUp, and 3D Studio Max preferred), and Microsoft Office suite (Word and Outlook primarily)
- Good communication, problem solving, and organizational skills
- Ability to visualize designs based upon emails and phone call conversations
- Detail-oriented
- Display creativity and willingness to initiate new ideas
- Flexible and understanding of client needs
- Able to work well under tight deadlines and in high pressure situations

Job Type

- Full Time / Permanent

Benefits

- 401K, Medical/Dental/Vision
- 15 days PTO in year one (increasing by two days for each year with the company)

Salary

- \$50,000–\$70,000
